Title: PHOTOSENSOR ACTIVATION OF AN EJECTION ELEMENT OF A FLUID-EJECTION DEVICE

IN THE ABSTRACT

Please replace the paragraph beginning at page 36, line 4, with the following re-written paragraph:

Abstract of the Disclosure

An activation element of a fluid ejection device includes an ejection element that causes fluid to be ejected from an associated nozzle chamber when activated. A photosensor is coupled to the ejection element. The photosensor is configured to generate an activation signal that causes the ejection element coupled to the photosensor to be activated when the photosensor is illuminated by a light source.
